

# BIST Founding Conference

Growing together, advancing science

Barcelona Institute of  
Science and Technology

## Microscopy: ending remarks

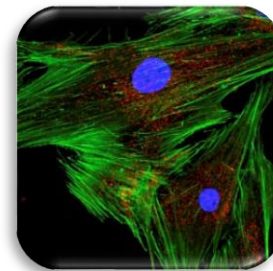

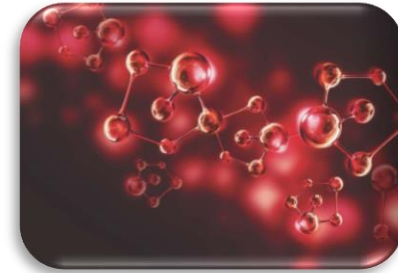

MARCH 31, 2017

CCCB | Barcelona

# Microscopy:

from atoms and molecules

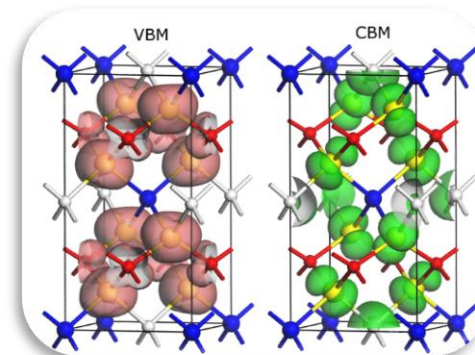

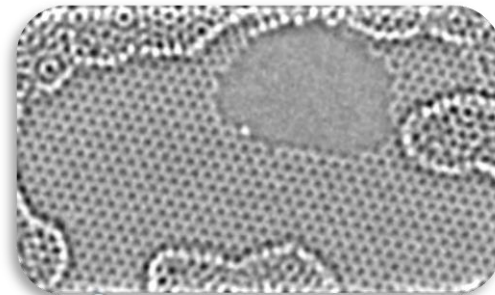

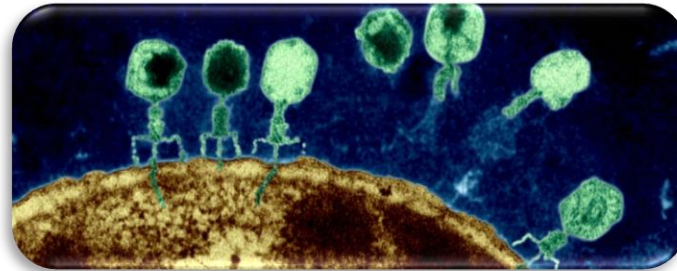

to cells and small living organisms...

# Synergy:

Microscopy with the different BIST strategic multidisciplinary projects:

- chemical biology
- graphene
- big data

# Great opportunity:

- light microscopy:  
consolidation, new cutting edge equipment
- electron microscopy:  
BIST - ALBA synchrotron as catalyst nucleus

# Microscopy: the eyes of science

Because *SEEING* the small world is understanding...  
and understanding builds the knowledge of our society
