Exploring Life Dynamics in and out of equilibrium

4th European Life Sciences
PhD & Postdoc symposium

12 - 14 May 2021
Online event

ENABLE 2021 will be the fourth edition of the ENABLE conference series: the **1st biomedical sciences symposia organized by and for young researchers at a European level**. Involving PhD students and Postdocs, this event seeks to encourage them to **open up the academic world from within** by promoting **cross-talk between biomedical disciplines, collaboration with the industry, and engagement with society**.

An inspiring event not to be missed!

TOPICS

- This online version of ENABLE 2021 will range from **fundamental biology** to **translational medicine**, and touch upon **multidisciplinary research** projects and **integrative omics** approaches.

KEYNOTE SPEAKERS

- Join us and learn from **renowned scientists** like Wilhelm Huck, Judith Campisi, Nicola Segata, Cecilia Lindgren, Andrea Crisanti, Marta Alonso, Linda Saif and Anthony A. Hyman.

OUTREACH ACTIVITIES

- Take part in our **Cross Disciplinary Session** and discuss about creativity in life on Friday 14th!
- **Ask the Scientists** everything you always wanted to know about neuroscience! (dates soon to be announced)
- And get comfortable and grab a beer at home while enjoying our **virtual Scientific Pubtalks** on Wednesday 12th!

WORKSHOP & CAREER DAY

- Develop your scientific and soft skills by taking part in one of the **12 workshops** offering a broad range of topics:
- Transferable skills, Science Communication, Patenting, Social Media for Professionals, Scientific Writing, and Scientific Graphic Design.
- Also, check out different career paths after your PhD by talking with professionals from academia and industry during the **opportunity fair** and the **career chats**.
